

Welcome to the new CSC website!

We are making things easier to find, and simpler to understand. Things look different, but there have been no changes to your scheme.

Some things may not be quite where you expected, but don't worry, we are here to guide you through everything.

Selecting your scheme

When you first arrive, you'll be asked to select your scheme—this is to ensure you get quick access to information that is most relevant to you.

The 'how can we help you today' widget lets you choose from a list of common actions. If none of the common actions fit with what you're here to do, you can 'look for something else' using the search function.

Once you have selected your scheme, you will be able to click around the site and access all information related to your superannuation scheme.

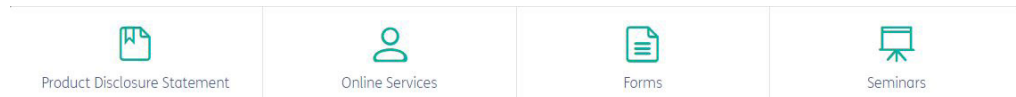

If you don't select your scheme when you first arrive, don't worry, you will get a reminder as soon as you get to a scheme-specific page.

For example, if you click straight to **Online services** before making a selection you will be prompted to select your scheme:

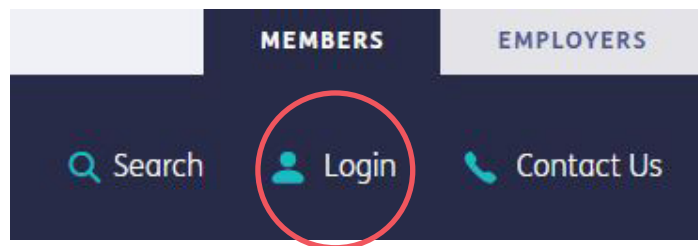

Quick links

The new site has a 'quick access' menu that makes it easier for you to jump straight to common actions on the site:

And you can also login to member services online from the top right hand side of the page, just like before:

Can't find something?

Our website has been designed with our members in mind, and we want to make sure that all of our members are able to find what they need online. If you can't find what you need, please let us know by emailing the CSC webmaster at **customercommunications@csc.gov.au**.
